### Calco della canna e della camera di scoppio

€ 35,00

#### Legga Ragement.

Come sappiamo, chi pratica la discipline professionali quali BR 300 metri, deve conoscere tutte le peculiarità della propria carabina, in particolare della canna e della camera di scoppio. Le misurazioni fino ad oggi si effettuavano in vari modi e non tanto precisi. Oggi il calco si effettua con la speciale lega della ditta Ragement. Altra caratteristica di questa lega è il fatto di poter essere riutilizzata infinite volte. Lingotto di 270 gr circa.
